PROFESSIONAL SUMMARY

Software Engineer | Full-Stack Developer

Software engineer with 3+ years of professional experience and 8+ years of programming across web, Windows, and Android platforms. Builds clean, maintainable, and scalable applications with React, Next.js, Express, Laravel, and relational databases. Experienced as an interim lead developer and in test automation with Python Robot Framework. Deployed in Japan as a Control System Engineer, adding hands-on network and infrastructure experience (switches, routers, firewalls, Active Directory) to a full-stack perspective.

TECHNICAL SKILLS

Languages: JavaScript • TypeScript • Java • C# (.NET) • PHP • Python • Batch Script

Front-End: React • Next.js

Back-End: Express.js

Databases: PostgreSQL • MySQL • Firebase Realtime Database

Tools & Deployment: Git • GitHub • Docker • Android Studio • Claude Code • Vercel • Render • Neon • S3-compatible Object Storage

Testing & Automation: Python Robot Framework • Automated Test Scripts

Networking & Systems: Cisco Switches/Routers • WatchGuard Firewall • Windows Server • Active Directory • Domain Controllers

PROFESSIONAL EXPERIENCE

AI Model Trainer | Data Annotation, Remote — May 2026 – Present

- Compare output quality and performance across AI models using identical prompts, and document findings and conclusions.
- Train and evaluate AI models to resolve issues, improve performance, and implement new features and quality-of-life improvements in widely used open-source repositories.
- Submit prompt results, model comparisons, and before-and-after repository changes for assigned tasks.

Software Engineer II | Tsukiden Global Solutions Inc., Pasig, Philippines — Oct 2022 – Jan 2026

- Developed and maintained Windows, web, and configuration tools that supported system setup and deployment.
- Automated Windows settings checks, speeding up verification of setups and configurations against intended specifications.
- Automated proprietary software setup and file configuration, enabling faster and more consistent deployments.
- Served as Interim Lead Developer, ensuring project quality and on-time delivery.
- Maintained Python Robot Framework test scripts and updated test cases as system specifications evolved.
- Performed automation testing of the pre-order steps feature in an e-commerce web application.
- Authored network and system setup manuals to standardize configuration procedures and speed up deployment.
- Conducted Factory Acceptance Testing (FAT) for system validation.
- Configured network devices and integrated PCs into the domain.
- Administered Windows Server, Active Directory, and domain controllers.

Mobile & Web Developer (Internship) — Jun 2022 – Aug 2022

Wedding Suppliers Association of the Philippines, Cavite

- Led the mobile development team and coordinated cross-functional efforts.

- Delivered Android and web applications aligned with user requirements.
- Managed the project lifecycle from planning through deployment.
- Served as IT Department Representative for technical initiatives.

EDUCATION

Bachelor of Science in Information Technology 2018 – 2022

Polytechnic University of the Philippines

- Best in Capstone Project (University Representative)
- Top Performer in Computer Programming

Information and Communications Technology 2016 – 2018

Lyceum of Alabang

- Best Innovative Capstone Project
- Best in Computer Programming
